

*Q1*  
from the printing of the image, the coordinate system being capable of locating a specific area of the image on the print.

*Please replace the paragraph beginning on page 4, line 17 with the following rewritten paragraph:*

*a) relating a digital-image with respect to a predetermined coordinate system; and*

*Please replace the paragraph beginning on page 4, line 19 with the following rewritten paragraph:*

*b) printing the digital-image on a media having the coordinate system, the coordinate system not being visible to the human eye under normal viewing conditions.*

**In the Claims:**

*Please amend claims 1, 3, 5, 6, 20, 24 and 25 as set forth below:*

*1.(Once Amended) A method for making a digital print, comprising the steps of:*

*a) obtaining a digital image file containing an image for printing by a digital printer;*

*b) printing said image onto a media using said digital printer; and*

*c) printing a coordinate system on said media over said image that is not visible to the human eye under normal viewing conditions separate from said printing of said image, said coordinate system being capable of locating a specific area of said image on said print.*

*3.(Once Amended) A method according to claim 2 wherein said information is printed directly over said image.*

*OK*

5.(Once Amended) A method according to claim 4 further comprising the step of providing information with respect to said specific area.

*SJBB*

6.(Once Amended) A method according to claim 4 wherein said information is printed directly over said image.

*JK*

20.(Once Amended) A method according to claim 19 wherein said step of modifying said image comprises cropping said image.

C8/39-48

*AB*

24.(Once Amended) A computer program product, comprising a computer readable storage medium having a computer program stored therein which when loaded in a computer will enable a digital printer to perform the steps of:

- a) relating a digital image with respect to a predetermined coordinate system; and
- b) printing said digital image on a media having said coordinate system, said coordinate system not being visible to the human eye under normal viewing conditions.

25.(Once Amended) A computer program product according to claim 24 wherein said image having a predetermined relationship with said coordinate system, said image having associated data relating a particular aspect with respect to a location defined by said coordinate system.

Please add new claims 26, 27 and 28 as follows.

*OK*

26.(New) A method according to claim 2 wherein said coordinate system is printed directly over said image.

27.(New) A method according to claim 4 wherein said coordinate system is printed directly over said image.

*QD*

28.(New) A method according to claim 19 wherein said step  
of modifying said image comprises enlarging said image.
